School Overview

Graceville State School is located in the western suburbs of Brisbane serving the suburbs of Graceville, Chelmer and Tennyson. The school opened in 1928 and since that time has been providing a caring learning environment that has been recognised as high quality. The school motto "Strive to Excel", captures the focus on high expectations. The school is moving towards emphasising an Inquiry Approach to Learning whilst also building knowledge, skills, behaviours and dispositions that are required for 21st Century life long learning. Known as the Graceville State School Learning Assets, we continue to develop as Collaborators, Self-managers, Thinkers, Communicators and Researchers. Programs include enhancement classes, intervention programs, a Mandarin language program, a music program that includes choirs, bands and orchestras and a sports program that includes interschool competitions. Academically, the school consistently achieves high results in national tests. The Pathways to Peace program provides a foundation for the expectations of behaviours of all involved in the school. The school enjoys strong community support. Parents are an integral part of the school and are involved in all aspects. A highlight of the school year is the annual fete held in late August. The school has a variety of child focussed groups and activities offered through private providers that operate within the school grounds. These include sporting clubs and youth groups, artistic and musical pursuits as well as before and after school care.

Principal's Foreword

Introduction

We are a Curiosity and Powerful Learning School, mindful of the changing and uncertain future our children will face, preparing them with a broad set of future focused foundational skills to enable them to engage successfully in society. Our 750 students, come from homes that value education and see it as a path to a successful future. There is a unanimous belief amongst the school community that all children can learn and as such are committed to ensuring an education which is in the best interest of every child.

Our School Vision

We are on a road to excellence!

CURIOSITY AND POWERFUL LEARNING, THE FOUNDATION FOR EVERY STUDENT SUCCEEDING!

To develop highly literate, numerate and curious students who are prepared to meet the challenges of the changing world. Our students will be able to actively engage in society and influence the world around them.

Strategic Planning Cycle

The 2016 – 2019 Strategic Plan currently forms the basis for all school improvement at Graceville State School.

The following information is a reflection of the schools progress in 2016.

School Progress towards its goals in 2016

Powerful Learning through Explicit Teaching in Reading - Teacher Theory of Action Focus: Learning Intention and Success Criteria.

The school refined Learning Intentions and Success Criteria for the Active Comprehension strategies explicitly taught in reading and ensured high frequency and quality of feedback (teacher to student, student to teacher and student to student) connected to the Learning Intention and Success Criteria of the lesson. A blended learning model was used to develop the skills of teachers. Peer observation and feedback occurred through TRIADS and Instructional coaches worked alongside our teachers to build pedagogy. The school achieved 94% of teachers knowing and being able to use Learning Intention and Success Criteria in lessons.

Powerful Learning through Inquiry focused Teaching and Learning in Science or HASS - Whole School Theory of Action Focus

Kath Murdoch, an expert from Melbourne University, started supporting the school to develop an Inquiry Approach to Learning. Initial PD for teachers on effective planning and pedagogy to ensure high quality Inquiry learning occurred. Teachers 'played' and familiarised themselves with Inquiry. P-2 and Enhancement classes engaged in Science and 3-6 engaged in HASS. A Curiosity and Powerful Learning Coach was employed to work alongside teachers to help develop Inquiry Units and liaise with Kath Murdoch and network schools. At the end of the 2016 school year, the school adopted Kath Murdoch's Model of Inquiry as the methodology to move the school forward. The school negotiated a learning partnership with Kath Murdoch for the 2017 and 2018 school years.

Curiosity - Whole School and Community Awareness

As a school we have tried to build an awareness of what it is to be a curious person. We have developed an awareness of the 7 characteristics of thinking to support learning. We encouraged and celebrated students and teachers to have a go at using the 7 characteristics of a curious person. We used newsletters, assemblies, special awards and special event days to raise awareness for curiosity for our school community.

Powerful Learning through Explicit Teaching in Problem Solving in Mathematics - Continuation of Explicit Teaching of Problem Solving

The school established a non-negotiable of every class having a minimum of one lesson per week where they explicitly taught a method of how to solve problems in maths. Problem solving coaches worked alongside teachers to embed a common language and pedagogy for the explicit teaching of each strategy.

Staff and Student Wellbeing - Whole School Awareness Raising

The school developed a Whole School Wellbeing Framework. The framework helped to build an awareness of what wellbeing is and how we can improve wellbeing in the school. Newsletter, assemblies, a new special award, and mindfulness activities in Teaching Team Catch Ups were used as a way to build awareness. The staffroom was also revamped to ensure a more relaxing zone for meal breaks.

What the school will focus on in the second year of our 2016 – 2019 Strategic Plan

Future Outlook

In 2017, the school will engage in the second year of the 2016 – 2019 Strategic Plan. The following strategies will advance our longer term plans to build an Inquiry Approach to learning within the school.

Powerful Learning through the Teacher Theory of Action - Framing Higher Order Questions (FHOQ)

Refining teacher pedagogy of how to employ higher order questions to deepen student understanding, curiosity and achievement. References: CPL rubric for FHOQ, Webb's Depth of Knowledge (DOK) Matrix.

A cycle of Inquiry learning model will be used to develop the skills of our teachers and measure impact on student learning (Scan and Assess, Plan/Priorities/Develop, Act, Review). The inquiry cycle will be supported by a schedule of pre and post conversations with TRIAD inquiry partners and GROWTH coaches.

Curiosity and Powerful Learning through the Whole School Theory of Action – Emphasise Inquiry Focused Teaching

Kath Murdoch (Melbourne University) to work alongside school to help develop an Inquiry Approach to Learning.

2017 Essentials to start building an Inquiry Approach

- Learning Assets – formal introduction and informal use in teachable moments in and outside classroom (Collaborator, Communicator, Researcher, Thinker, Self-Manager)
- Kath Murdoch planning model in HASS (Humanities and Social Sciences) and/ or Science
- Split Screen Learning Intention and Success Criteria incorporating the Learning Assets within the Inquiry Approach
- Report card comments describing student development with Learning Assets Sem 1 and 2

Coach employed to work alongside teachers, facilitate collaborative planning and liaise with Kath Murdoch and network schools. The coach will also provide professional development sessions for staff and information sessions for parents.

Theory of Action – Consistent Teaching Protocols - Implement a Whole School Approach to Spelling

Introduce Words Their Way (WTW) as the consistent spelling program of the school. Assess student progress each term and adjust student learning groups to ensure targeted teaching and continued student progress.

Our School at a Glance

School Profile

Coeducational or single sex:	Coeducational
Independent Public School:	No
Year levels offered in 2016:	Prep Year - Year 6

Student enrolments for this school:

	Total	Girls	Boys	Indigenous	Enrolment Continuity (Feb – Nov)
2014	796	362	434		97%
2015*	752	333	419	4	95%
2016	742	335	407	3	98%

Student counts are based on the Census (August) enrolment collection.

*From 2015, data for all state high schools include Year 7 students. Prior to 2015, only state high schools offering Year 7 had these students included in their counts.

In 2016, there were no students enrolled in a pre-Prep** program.

** pre-Prep is a kindergarten program for Aboriginal and Torres Strait Islander children, living across 35 Aboriginal and Torres Strait Islander communities, in the year before school (<http://deta.qld.gov.au/earlychildhood/families/pre-prep-indigenous.html>).

Characteristics of the Student Body

Overview

In 2016 enrolments at Graceville remained at a similar level to 2015. The school operated 31 classes, generally single year levels, from prep to year 6, with 2 enhancement classes operating in year 3 / 4 and 5 / 6. Distribution of gender across the student body sways more heavily towards males. The school has less than 5 students identifying they are from an Aboriginal or Torres Strait Islander background. The student body is gradually becoming more diverse, with a greater number of children from multicultural backgrounds enrolling in the school. The school caters for students from English as a second language background. The school has a number of students with disabilities. Students with disabilities access a mainstream education which is supported by lessons from a specialist teacher. Enrolments in the lower school are increasing with approximately 115 students per year level. This trend is expected to continue into the future with many current students having younger siblings intending to enrol in the future.

Average Class Sizes

The following table shows the average class size information for each phase of schooling.

AVERAGE CLASS SIZES			
Phase	2014	2015*	2016
Prep – Year 3	19	23	22
Year 4 – Year 7	24	25	24
Year 8 – Year 10			
Year 11 – Year 12			

*From 2015, data for all state high schools include Year 7 students. Prior to 2015, only state high schools offering Year 7 had these students included in their counts.

Curriculum Delivery

Our Approach to Curriculum Delivery

Curiosity and Powerful Learning: In 2015, the school was selected to engage in the Curiosity and Powerful Learning project. We are one of 100 schools in Australia in the project. The project is an initiative of the Sydney Myer Foundation and the Mitchell Institute and is supported by universities in both QLD and Victoria. Over a 5 year period our school will become very conscious of the pedagogy we choose to use to deliver specific Key Learning areas and lessons. The project promotes deep teacher understanding of both an inquiry approach to teaching and learning and explicit instruction.

An Inquiry Approach to Learning: Consultation in our School Review in 2015 showed great support from all members of the school community to move towards an Inquiry Approach to Learning at Graceville. The staff understand this is a long term project which will take the school at least 5 years to develop. A major aim will be for school leadership, teachers and students to develop inquiring dispositions and embed the Learning Assets required for 21st Century lifelong learning.

Explicit Instruction: Graceville State School uses the Gradual Release of Responsibility method of teaching and learning as a consistent method of explicit instruction across the school. Teachers currently use the Gradual Release of Responsibility in the teaching of reading and writing.

Enhancement Classes: Graceville State School offered an enhancement program through two multi age classes, Year 3/4 and 5/6. This program aimed to provide curriculum enhancement opportunities for high achieving students. Students generally stay in the same class, with the same students and teachers for up to 2 years. Enrolment in the classes is via Expression of Interest and selection into the program is based on both academic achievement results and evidence of a range of learning behaviours and attitudes suitable for success in the program.

Special Education Support for Students with Disabilities: Students with disabilities are mainstreamed at Graceville. A teacher with specialised skills is employed to support students with disabilities both within the classroom and in specific lessons which are required to support the individual learning needs of the students.

Extending learning through links with local high schools: High achieving students are provided opportunities to extend their learning by taking part in higher order learning projects through links with Corinda and Indooroopilly High schools and the Queensland Academy of Science, Mathematics and Technology.

Partnership arrangement with the state academies: The school has a partnership with the state academies to access online learning opportunities to further extend our high achieving students.

Co-curricular Activities

Graceville State School offers a range of activities in addition to the schools core curriculum. These include:

Student Council

Leadership development opportunities

School Camps for Years 5-6

Interschool Sport for Years 5-6

Instrumental Music Years 4-6

Music and Choral groups

Swimming Club

Tennis Club

The Young Rotarians Program for Year 6 students

Participation in National and International Academic Testing Competitions.

Overseas Study Tours (dependent on student participation) both hosting and travelling abroad

How Information and Communication Technologies are used to improve learning

At Graceville, we use ICT to create and construct knowledge through interconnected communities, by accessing a variety of mobile and fixed technologies and instilling a notion of continuous learning. Digital learning environments and experiences are provided to improve educational outcomes for students by engaging them in relevant activities in order to broaden their world for the future.

Graceville State School values the role ICT plays in the teaching and learning process and the importance of skill development in the effective use of these technologies. In 2016, our year 5 and 6 classes had access to a very high ratio of computers to students. Students used laptops daily in class time involving research, creating and publishing projects, accessing learning objects and other web based tools. iPad technology was also implemented across lower school and multi-age classes using supportive apps for learning and media type applications.

Students have access to networked computers through the school with internet access along with a range of software programs that support the teaching and learning process. All classrooms have interactive whiteboards with our library also containing a computer lab and wireless internet access. Classes access the digital devices available to deliver quality curriculum programs for students.

Digital technologies are accessed to provide connections to the world, access a variety of digital resources that support class learning opportunities and publish student work.

A part time computer technician and ICT coach supported staff in developing effective practices in using ICT in the planning, assessment and reporting stages of program development. The coach also provided professional development sessions for staff.

In 2016 the eLearning committee involving staff and community members continued to regularly meet to develop a variety of strategies within the school including policies for student use of eLearning tools, how the laptop and iPad were being used and how ICT indicators and skills are being supported across the school in teaching and learning programs. The committee also completed an audit of current hardware to help create a plan for resource management in the future.

A 5 year plan was created in 2016 to ensure continued replacement of technological devices. The P&C agreed the Voluntary Contributions for the next 5 years should be put towards replacement of hardware (iPad or laptops). The plan also explains how technological devices will be distributed and shared across the school.

Social Climate

Overview

After consultation with all community members and development of the 2016 – 2019 Strategic Plan, it was evident a change in the educational direction of the school was required. The change, although greatly supported in moral purpose by the school community and teaching staff, meant new learning and the development of having an inquiring disposition.

A model of 'inside out' leadership would also be developed across the 2016 school year. The 'inside out' model of leadership aims to increase opportunities for teacher voice and feedback to ensure both research evidence and teacher's professional practical knowledge and voice is utilised in school decision making. The impact of these changes will be more evident in 2017, after a year of learning and refining the associated systems and processes required to make the model effective across the school.

The Graceville State School community enjoys a healthy, positive, and respectful relationship between its members. The involvement of the wider community is entrenched in the school with productive partnerships well established with existing and past families.

Graceville parents have very high expectations of communication between school and home. There is an increasing expectation from parents that the school will communicate more regularly and with greater detail with parents. The teachers do their best to meet expectations that are reasonable and are considerate of teaching expectations across the school day. Graceville teachers' main responsibility in school hours is to be engaged with students, meeting the needs of students both academically and socially/emotionally. Teachers respond to parent communication before or after school or in Non Contact time. Emergent situations are prioritised at these times.

Graceville State School is committed to implementing the Pathways to Peace program. The program is espoused daily by staff and students. The Peace Code allows for a proactive approach to the continued development of our students.

Graceville State School provides a range of support staff to assist in providing our school a safe and supportive environment for teaching and learning to occur.

Parent, Student and Staff Satisfaction

Parent opinion survey

'Agree' represents the percentage of respondents who Somewhat Agree, Agree or Strongly Agree with the statement.

DW = Data withheld to ensure confidentiality.

Parent and community engagement

The staff of Graceville State School believe that parent/carer involvement in their child's learning is crucial. Teachers interact with parents/carers through a range of modes, newsletters, email, phone and formal and informal meetings. Teachers welcome parents into their classrooms to help in a range of ways.

In 2016, the school held Parent Information Session on Curiosity and Powerful Learning. Just over 100 parents attended these sessions.

The Parents and Citizens Association (P&C), is the peak organisation for community involvement and participation. Parents are encouraged to participate in various ways within the school. The P&C undertook many vital roles within our school and provided support services to the school community including the operation of the tuckshop and uniform shop. The P&C held a fete, Trivia Night and a welcome BBQ for parents.

The P&C at Graceville is very active. The P&C contribute to the strategic planning of the school and provide feedback and advice on various school initiatives. Most recently the 2015 school review where a group of volunteer parents were engaged in a three hour consultation process about the future needs of the school. In 2016, the school re-engaged the volunteer parents to provide feedback on their perspective of the schools progress towards its goals from the strategic plan.

Respectful relationships programs

Graceville State School is a Pathways to Peace School. The school behaviour expectations are based on being a Peacemaker. We encourage students to care for themselves and others, speak kindly to each other, do the right thing, try and turn things around, be brave and find help if they need it.

In 2016, the school also introduced an award called, Random Acts of Kindness, which encourages students to do good and kind things for each other without being asked. One child from each year level receives the award at fortnightly whole school assemblies.

Planning for 2017, includes emphasizing the general capabilities of the Australian Curriculum through the use of our 'Learning Assets'. Three of the Learning Assets, Collaborator, Communicator and Self Manager have specific skills which help students build dispositions which support the development of respectful young people.

Graceville Staff are engaged in conversations which promote above the line thinking and communication. Staff have had professional development to help them understand above and below the line thinking and communication via a company called Think One Team. We believe in actively building the skills of our staff so they can model and promote respectful relationships.

School Disciplinary Absences

The following table shows the count of incidents for students recommended for each type of school disciplinary absence reported at the school.

SCHOOL DISCIPLINARY ABSENCES			
Type	2014*	2015**	2016
Short Suspensions – 1 to 5 days	4	4	6
Long Suspensions – 6 to 20 days	1	0	0
Exclusions	0	0	0
Cancellations of Enrolment	0	0	0

* Caution should be used when comparing post 2013 SDA data as amendments to EGPA disciplinary provisions and changes in methodology created time series breaks in 2014 and 2015.

**From 2015, Exclusion represents principal decisions to exclude rather than recommendations for exclusion. From 2015 where a principal decided not to exclude, a small number of recommendations for exclusions have been counted as a long suspension. Exclusions, Cancellations and Long & Charge Suspensions may be upheld or set aside through an appeals process.

Environmental Footprint

Reducing the school's environmental footprint

During 2016, the school has continued to work on improving its efficiency in relation to electricity usage. This has been challenging due to the addition of a 3 level, 10 classroom teaching block, which was completed early in 2014. It has also been challenging as our fleet of air conditioners (put in by the P&C) are aging, placing increasing demands on school energy use.

We have solar panels on the roof of one of our buildings which helps supply an amount of energy back into the grid.

We are continuing to implement our School Environmental Management Plan which focuses on reducing our environmental footprint by reducing electricity usage, reducing the amount of waste, continuing to implement an active recycling program, considering environmentally friendly products when purchasing items in the school.

Our new building has many environmentally friendly features which will reduce our footprint. Energy saving lighting has been installed which turns off when not in use, power to the entire building turns off after the building has been vacated, air conditioners are pre-set at 24 degrees and can't be changed by individuals, and appropriate waste and recycling features are fully implemented. We also have several water tanks in the school which are used to water the oval and gardens. Two 75,000 litre water tanks were installed underground as part of the new building project. These are connected to the new building and are used to water the oval. Late in 2016, we started to experience issues with the tanks which placed a greater load back on the mains water usage. The school asked for facilities to help rectify the situation.

The P&C support the use of air conditioning in the school and understand this has an impact on energy use. The P&C are applying for a grant which if successful will put solar panels on the roof of the hall. The solar panels will cover the electricity usage of approximately 8 classrooms of the school. The P&C hope to continue to find ways to support the school to decrease energy usage.

ENVIRONMENTAL FOOTPRINT INDICATORS		
Years	Electricity kWh	Water kL
2013-2014	262,211	2,892
2014-2015	271,841	3,122
2015-2016	304,067	4,533

The consumption data is compiled from sources including ERM, Ergon reports and utilities data entered into One School by each school. The data provides an indication of the consumption trend in each of the utility categories which impact on the school's environmental footprint.

School Funding

School income broken down by funding source

School income, reported by financial year accounting cycle using standardized national methodologies and broken down by funding source is available via the *My School* website at <http://www.myschool.edu.au/>.

To access our income details, click on the *My School* link above. You will then be taken to the *My School* website with the following 'Find a school' text box.

Our Staff Profile

Workforce Composition

Staff composition, including Indigenous staff

Graceville State School has a very hard working and dedicated staff.

The information below provides a snap shot of the composition and qualifications of our staff.

2016 WORKFORCE COMPOSITION			
Description	Teaching Staff	Non-Teaching Staff	Indigenous Staff
Headcounts	54	19	0
Full-time Equivalents	43	15	0

Qualification of all teachers

TEACHER* QUALIFICATIONS	
Highest level of qualification	Number of classroom teachers and school leaders at the school
Doctorate	0
Masters	6
Graduate Diploma etc.**	1
Bachelor degree	44
Diploma	3
Certificate	0

TEACHER* QUALIFICATIONS	
Highest level of qualification	Number of classroom teachers and school leaders at the school

*Teaching staff includes School Leaders

**Graduate Diploma etc. includes Graduate Diploma, Bachelor Honours Degree, and Graduate Certificate.

Professional Development

Expenditure On and Teacher Participation in Professional Development

The total funds expended on teacher professional development in 2016 were \$150,000 (including Investing for Success funds to support the original PD budget that was set at the beginning of the 2016 school year)

The major professional development initiatives are as follows:

- Learning Intentions and Success Criteria in the teaching on Active Comprehension and the explicit teaching of Problem Solving Inquiry Learning – developing and Inquiry Approach
- Putting Faces on the Data Process – reading
- Think One Team Training for School Improvement Team members
- Collaborative Planning support for teachers
- Coaching – Instructional for coaching for teachers and Executive GROWTH coaching training for school leaders
- First Aid for any interested staff
- Asbestos Training for all staff

The proportion of the teaching staff involved in professional development activities during 2016 was 100%.

Staff Attendance and Retention

Staff attendance

Description	AVERAGE STAFF ATTENDANCE (%)		
	2014	2015	2016
Staff attendance for permanent and temporary staff and school leaders.	97%	97%	97%

Proportion of Staff Retained from the Previous School Year

From the end of the previous school year, 93% of staff was retained by the school for the entire 2016.

Performance of Our Students

Key Student Outcomes

Student Attendance

Student attendance

The table below shows the attendance information for all students at this school:

STUDENT ATTENDANCE 2016

Description	2014	2015	2016
The overall attendance rate* for the students at this school (shown as a percentage).	95%	95%	96%
The attendance rate for Indigenous students at this school (shown as a percentage).		93%	97%

*The student attendance rate is generated by dividing the total of full-days and part-days that students attended, and comparing this to the total of all possible days for students to attend, expressed as a percentage.

The overall student attendance rate in 2016 for all Queensland Primary schools was 93%.

AVERAGE STUDENT ATTENDANCE RATE* (%) FOR EACH YEAR LEVEL

Year Level	Prep	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9	Year 10	Year 11	Year 12
2014	96%	95%	95%	96%	96%	95%	96%	95%					
2015	95%	94%	96%	95%	96%	95%	95%						
2016	96%	95%	97%	96%	96%	95%	97%						

*Attendance rates effectively count attendance for every student for every day of attendance in Semester 1. The student attendance rate is generated by dividing the total of full-days and part-days that students attended, and comparing this to the total of all possible days for students to attend, expressed as a percentage.

DW = Data withheld to ensure confidentiality.

Student Attendance Distribution

The proportions of students by attendance range:

Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the DET procedures, *Managing Student Absences and Enforcing Enrolment and Attendance at State Schools* and *Roll Marking in State Schools*, which outline processes for managing and recording student attendance and absenteeism.

At Graceville State School, class rolls are marked twice a day by teachers. Parents of our school are made aware that they must contact the school via phone, email or letter, either on the day of absence or the day they return to school to advise of the reason for a child's absence.

If a child is away for three or more days, and the absence is unexplained, the family is contacted to enquire about the health and whereabouts of the child.

Families at Graceville are aware that if travelling overseas, they must complete the appropriate paperwork to ensure the school are aware of the duration of the absence, the intent to return to the school and seek approval from the principal.

The school follows advice provided by The Department in relation to Every Day Counts.

At Graceville, parents value education and keep the school well informed of student attendance.

NAPLAN

Our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9 are available via the My School website at <http://www.myschool.edu.au/>.

To access our NAPLAN results, click on the My School link above. You will then be taken to the My School website with the following 'Find a school' text box.

Find a school

The screenshot shows a search form with a blue background. At the top, it says "Find a school". Below this, there are two input fields: "School name" and "Suburb, town or postcode". To the right of the "School name" field is a red button with the text "GO". Below the "Suburb, town or postcode" field, there is a section labeled "Sector:" with two checked checkboxes: "Government" and "Non-government". At the bottom of the form is a large red button with the text "SEARCH".

Where it states '**School name**', type in the name of the school you wish to view, select the school from the drop-down list and select <GO>. Read and follow the instructions on the next screen; you will be asked to confirm that you are not a robot then by clicking continue, you acknowledge that you have read, accepted and agree to the **Terms of Use** and **Privacy Policy** before being given access to the school's *profile* webpage.

School NAPLAN information is available by selecting '**NAPLAN**' in the menu box in the top left corner of the school's profile webpage. If you are unable to access the internet, please contact the school for a paper copy of our school's NAPLAN results.

Conclusion

The Graceville State school community are excited about the direction and vision of our 2016 – 2019 Strategic Plan.

The school staff have embarked on a long term journey to transition the school to incorporate an Inquiry Approach to Learning.

Each year the school will build on success, learning and growing, to ensure we are meeting the needs of our students.
